PROSPECTUS.

CANISIUS COLLEGE, conducted by the Fathers of the Society of Jesus, was opened in September 1870, and incorporated in January 1883 by the Regents of the University of the State of New York, with power to confer Degrees and Academical Honors.

Its object is to afford Catholic youth the facilities for securing a solid and complete education based on the principles of religion and calculated to fit them for a successful career in life.

Students who wish to enter the College will find every desirable accommodation.

Special libraries for the promotion of good reading, a very handsome and complete set of Philosophical Instruments, a well equipped Chemical Laboratory, a collection of objects of Natural Science have been procured and are being yearly increased by the pecuniary sacrifices of the Institution and the generosity of friends.

STUDIES.

The *Courses of Instruction* are the *Classical Course* and the *Commercial Course.*

The *Classical Course* embraces as obligatory branches Christian Doctrine; the English, Latin and Greek Languages; English Literature, Rhetoric and Poetry; Elocution; Penmanship; History and Geography; Mathematics; Physics, Chemistry, Geology, and Astronomy; Mental and Moral Philosophy.

The Classical Course lasts seven years. The students who have completed this course and have proved their proficiency by written and oral examinations, receive the *Degree of Bachelor of Arts.*

The *Commercial Course* offers to those who are preparing for a mercantile career, an opportunity of perfecting themselves in all the branches necessary for commercial pursuits. It comprises Christian Doctrine, Penmanship, English, History and Geography, Arithmetic, Algebra, Physics and Chemistry, Book-keeping, Commercial Law, and Political Economy.

The Commercial Course is completed in four years. Those who have gone through this course and given satisfaction in their oral and written examinations, receive a *Certificate* testifying the successful completion of the Commercial Course.

The German Language, on account of its great importance for the professional as well as the mercantile careers, will be taught in all classes.

Besides the obligatory branches of the Classical and the Commercial Course, instruction is given to those who desire it, in the French Language, in Drawing, Short-hand, Type-writing, and Instrumental Music. From these optional branches, however, pupils are excluded who do not give satisfaction in their obligatory studies.

A *Preparatory Class* is open for the benefit of those pupils whose insufficient knowledge of the rudiments prevents them from entering one of the regular courses. Applicants for this class, however, must know how to read, write and spell creditably, and in Arithmetic they must know the four operations with whole numbers.

Candidates for admission will be examined and placed in that Class to which they are entitled by their attainments.

The *Scholarship* of each Student is determined by the daily class work as well as by reviews and examinations. No student who has not the required standard of proficiency, is allowed to proceed to a higher Class at the end of the year, unless he makes up for his deficiency within a specified time.

The *Scholastic Year* consists of one session which begins on the first Wednesday of September and closes towards the end of June, when the Annual Commencement and the Distribution of Prizes take place.

It is highly important that all the students be present on the day of re-opening, as the regular class work begins at once and late comers find it difficult to make up for lost time and instruction.

DISCIPLINE.

I. In general: The Regulations of the College are calculated to secure the order necessary for the effectual pursuits of studies, to develop and strengthen character, and to promote gentlemanly deportment and good manners. They are enforced with paternal gentleness, combined with energy and firmness. It is only when motives of honor, self-respect, conscience, and religion fail, that punishment is resorted to.

Every *Candidate for admission*, who is not personally known to some member of the Faculty, is required to furnish sufficient testimony of a good moral character. If he comes from another Institution, he is required to bring satisfactory testimonials.

Bad conduct in or outside the College, insubordination, continued inapplication to studies, or irregularity in attendance, are causes of dismissal.

The use of intoxicating liquor, or its introduction into the Institution, is prohibited under pain of expulsion. The use of tobacco is forbidden.

The Moral and Religious Training of the scholars being the most important part of education, the pupils are required to be present at Mass every day, to make the Annual Retreat, and to present themselves to their confessor at least once a month.

Quarterly reports are sent to parents or guardians respecting the students' conduct, application, and progress in studies.

II. For Boarders in particular: In order to prevent dangerous reading and useless expenses, no books, papers, periodicals, etc., are allowed among the students unless approved by the authorities.

The *Correspondence* is subject to the inspection of the President or one appointed by him.

On recreation days the Boarders have regular walks, or resort to the College villa on the outskirts of the city.

Those who have parents or guardians residing in the city, are allowed to visit them *once a month.* This privilege, however, is withheld from any student whose conduct or application has not been satisfactory.

No Boarder is permitted to visit the city, unless for urgent reasons, at the special request of parents or guardians, and accompanied by them or by one of the Faculty. It is very desirable that such requests should be made as rarely as possible, frequent visits to the city being hurtful to the students and very annoying to the College.

At *Christmas* leave of absence from the College is not granted. This rule is strictly enforced, as its neglect generally proves detrimental both to the students themselves and their studies.

Eatables may be sent to the Boarders for Christmas, but at *no other time* of the year.

Visitors may see the students during the hours of recreation, but not during class or study time.

No Boarders are kept at the College during the Summer vacation.

III. For Day-scholars in particular: Day-scholars are required to be regular and punctual in their attendance. They must be at the College at 8 A. M. and 1:45 P. M.

Parents are requested to insist on their sons devoting at least two hours every evening to private study, and in case of absence from College, to give prompt notice of the cause to the Prefect of the Day-scholars.

Day-scholars may study for two hours at the College under the direction of one of the Fathers.

They are forbidden to bring anything to or from Boarders, or to do any errand for them, or to associate with them more than is necessary in Class and Academic Exercises.

Weekly reports are given respecting their conduct, application, attention, and deportment; parents are requested to sign these reports and to see that they are promptly returned to the College.

TERMS.

A. *For Boarders:*	Board and Tuition, per annum,	$200.00
	Washing,	20.00
	Bedding,	12.00
	Library Fee,	1.00
B. *For Day-scholars:*	Tuition,	40.00

	Use of Piano per annum: for lessons, or practice only,	4.00
	for lessons and practice,	6.00
	Graduation Fee,	5.00
	Commercial Certificate,	5.00

Payments are to be made *quarterly*, and *invariably in advance.* In case this rule is not complied with, the student will not be admitted nor kept. Guardians must sign a contract that they will be held personally for their wards.

Each Boarder should be supplied with, at least, two suits for daily wear, and one for Sundays; six shirts, six collars, three night-shirts, six pair of stockings, six handkerchiefs, six towels, six napkins; two or three neck-ties, two or three pair of shoes or boots, a pair of rubbers, and an overcoat. The full name, or the respective number must be marked on every article.

No advances will be made by the College for clothing, books, music lessons, or any similar purpose, unless an equivalent sum be deposited in the hands of the Treasurer. For books and stationery Day-scholars are required to pay cash.

With regard to pocket money it is desirable that parents should allow their sons only a moderate sum, and that this be left, not with the students, but with the Prefect of Discipline, to be given as prudence may suggest or occasion require.

PROSPECTUS.

CANISIUS COLLEGE, conducted by the Fathers of the Society of Jesus, was opened in September 1870, and incorporated in January 1883 by the Regents of the University of the State of New York, with power to confer Degrees and Academical Honors.

Its object is to afford Catholic youth the facilities for securing a solid and complete education based on the principles of religion and calculated to fit them for a successful career in life.

Students who wish to enter the College will find every desirable accommodation.

Special libraries for the promotion of good reading, a very handsome and complete set of Philosophical Instruments, a well equipped Chemical Laboratory, a collection of objects of Natural Science have been procured and are being yearly increased by the pecuniary sacrifices of the Institution and the generosity of friends.

STUDIES.

The *Courses of Instruction* are the *Classical Course* and the *Commercial Course*.

The *Classical Course* embraces as obligatory branches Christian Doctrine; the English, Latin and Greek Languages; English Literature, Rhetoric and Poetry; Elocution; Penmanship; History and Geography; Mathematics; Physics, Chemistry, Geology, and Astronomy; Mental and Moral Philosophy.

The Classical Course lasts seven years. The Students who have completed this course and have proved their proficiency by written and oral examinations, receive the *Degree of Bachelor of Arts*.

The *Commercial Course* offers to those who are preparing for a mercantile career, an opportunity of perfecting themselves in all the branches necessary for commercial pursuits. It comprises Christian Doctrine, Penmanship, English, History and Geography, Arithmetic, Algebra, Physics and Chemistry, Book-keeping, Commercial Law, and Political Economy.

The Commercial Course is completed in four years. Those who have gone through this course and given satisfaction in their oral and written examinations, receive a *Certificate* testifying the successful completion of the Commercial Course.

The German Language, on account of its great importance for the professional as well as the mercantile careers, will be taught in all classes.

Besides the obligatory branches of the Classical and the Commercial Course, instruction is given to those who desire it, in the French Language, in Drawing, Short-hand, Type-writing, and Instrumental Music. From these optional branches, however, pupils are excluded who do not give satisfaction in their obligatory studies.

A *Preparatory Class* is open for the benefit of those pupils whose insufficient knowledge of the rudiments prevents them from entering one of the regular courses. Applicants for this class, however, must know how to read, write and spell creditably, and in Arithmetic they must know the four operations with whole numbers.

Candidates for admission will be examined and placed in that Class to which they are entitled by their attainments.

The *Scholarship* of each Student is determined by the daily class work as well as by reviews and examinations. No Student who has not the required standard of proficiency, is allowed to proceed to a higher Class at the end of the year, unless he makes up for his deficiency within a specified time.

The *Scholastic Year* consists of one session which begins on the first Wednesday of September and closes towards the end of June, when the Annual Commencement and the Distribution of Prizes take place.

It is highly important that all the Students be present on the day of re-opening, as the regular class work begins at once and late comers find it difficult to make up for lost time and instruction.

DISCIPLINE.

I. In general: The Regulations of the College are calculated to secure the order necessary for the effectual pursuits of studies, to develop and strengthen character, and to promote gentlemanly deportment and good manners. They are enforced with paternal gentleness, combined with energy and firmness. It is only when motives of honor, self-respect, conscience, and religion fail, that punishment is resorted to.

Every Candidate for admission, who is not personally known to some member of the Faculty, is required to furnish sufficient testimony of a good moral character. If he comes from another Institution, he is required to bring satisfactory testimonials.

Bad conduct in or outside the College, insubordination, continued inapplication to studies, or irregularity in attendance, are causes of dismissal.

The use of intoxicating liquor, or its introduction into the Institution, is prohibited under pain of expulsion. The use of tobacco is forbidden.

The Moral and Religious Training of the scholars being the most important part of education, the pupils are required to be present at Mass every day, to make the Annual Retreat, and to present themselves to their confessor at least once a month.

Quarterly reports are sent to parents or guardians respecting the Students' conduct, application, and progress in studies.

II. For Boarders in particular: In order to prevent dangerous reading and useless expenses, no books, papers, periodicals, etc., are allowed among the Students unless approved by the authorities.

The *Correspondence* is subject to the inspection of the President or one appointed by him.

On recreation days the Boarders have regular walks, or resort to the College villa on the outskirts of the city.

Those who have parents or guardians residing in the city, are allowed to visit them *once a month*. This privilege, however, is withheld from any Student whose conduct or application has not been satisfactory.

No Boarder is permitted to visit the city, unless for urgent reasons, at the special request of parents or guardians, and accompanied by them or by one of the Faculty. It is very desirable that such requests should be made as rarely as possible, frequent visits to the city being hurtful to the Students and very annoying to the College.

At Christmas leave of absence from the College is not granted. **This rule is strictly enforced,** as its neglect generally proves detrimental to the Students themselves and their studies.

Eatables may be sent to the Boarders for Christmas, but at *no other time* of the year.

Visitors may see the Students during the hours of recreation, but not during class or study time.

No Boarders are kept at the College during the Summer vacation.

III. For Day-scholars in particular: Day-scholars are required to be regular and punctual in their attendance. They must be at the College at 8 A. M. and 1:45 P. M.

Parents are requested to insist on their sons devoting at least two hours every evening to private study, and in case of absence from College, to give prompt notice of the cause to the Prefect of the Day-scholars.

Day-scholars may study for two hours at the College under the direction of one of the Fathers.

They are forbidden to bring anything to or from Boarders, or to do any errand for them, or to associate with them more than is necessary in Class and Academic Exercises.

Weekly reports are given respecting their conduct, application, attention, and deportment; parents are requested to sign these reports and to see that they are promptly returned to the College.

TERMS.

Payments are to be made *quarterly*, and *invariably in advance.* In case this rule is not complied with, the Student will not be admitted nor kept. Guardians must sign a contract that they will be held personally for their wards.

Each Boarder should be supplied with, at least, two suits for daily wear, and one for Sundays; six shirts, six collars, three night-shirts, six pair of stockings, six handkerchiefs, six towels, six napkins; two or three neck-ties, two or three pair of shoes or boots, a pair of rubbers, and an overcoat. The full name, or the respective number must be marked on every article.

No advances will be made by the College for clothing, books, music lessons, or any similar purpose, unless an equivalent sum be deposited in the hands of the Treasurer. For books and stationery Day-scholars are required to pay cash.

With regard to pocket money it is desirable that parents should allow their sons only a moderate sum, and that this be left, not with the Students, but with the Prefect of Discipline, to be given as prudence may suggest or occasion require.

PROSPECTUS.

CANISIUS COLLEGE, conducted by the Fathers of the Society of Jesus, was opened in September 1870, and incorporated in January 1883 by the Regents of the University of the State of New York, with power to confer Degrees and Academical Honors.

Its object is to afford Catholic youth the facilities for securing a solid and complete education based on the principles of religion and calculated to fit them for a successful career in life.

Students who wish to enter the College will find every desirable accommodation.

Special libraries for the promotion of good reading, a very handsome and complete set of Philosophical Instruments, a well equipped Chemical Laboratory, a collection of objects of Natural Science have been procured and are being yearly increased by the pecuniary sacrifices of the Institution and the generosity of friends.

STUDIES.

The Courses of Instruction embrace as obligatory branches Christian Doctrine; the English, Latin and Greek Languages; English Literature, Rhetoric and Poetry; Elocution; Penmanship; History and Geography ; Mathematics; Book-keeping; Physics, Chemistry, Geology, and Astronomy; Mental and Moral Philosophy.

The German Language, on account of its great importance for the professional as well as the mercantile careers, will be taught in all classes.

Besides the obligatory branches, instruction is given to those who desire it, in the French Language, in Drawing, Short-hand, Typewriting, and Instrumental Music. From these optional branches, however, pupils are excluded who do not give satisfaction in their obligatory studies.

A *Preparatory Class* is open for the benefit of those pupils whose insufficient knowledge of the rudiments prevents them from entering one of the regular courses. Applicants for this class, however, must know how to read, write and spell creditably, and in Arithmetic they must know the four operations with whole numbers.

Candidates for admission will be examined and placed in that Class to which they are entitled by their attainments.

The *Scholarship* of each Student is determined by the daily class work as well as by reviews and examinations. No Student who has not the required standard of proficiency, is allowed to proceed to a higher Class at the end of the year, unless he makes up for his deficiency within a specified time.

The *Scholastic Year* consists of one session which begins on the first Wednesday of September and closes towards the end of June, when the Annual Commencement and the Distribution of Prizes take place.

It is highly important that all the Students be present on the day of re-opening, as the regular class work begins at once and late comers find it difficult to make up for lost time and instruction.

DISCIPLINE.

I. In general: The Regulations of the College are calculated to secure the order necessary for the effectual pursuits of studies, to develop and strengthen character, and to promote gentlemanly deportment and good manners. They are enforced with paternal gentleness, combined with energy and firmness. It is only when motives of honor, self-respect, conscience, and religion fail, that punishment is resorted to.

Every Candidate for admission, who is not personally known to some member of the Faculty, is required to furnish sufficient testimony of a good moral character. If he comes from another Institution, he is required to bring satisfactory testimonials.

Bad conduct in or outside the College, insubordination, continued inapplication to studies, or irregularity in attendance are causes of dismissal.

The use of intoxicating liquor, or its introduction into the Institution, is prohibited under pain of expulsion. The use of tobacco is forbidden.

The Moral and Religious Training of the scholars being the most important part of education, the pupils are required to be present at Mass every day, to make the Annual Retreat, and to present themselves to their confessor at least once a month.

Quarterly reports are sent to parents or guardians respecting the Students' conduct, application, and progress in studies.

II. For Boarders in particular : In order to prevent dangerous reading and useless expenses, no books, papers, periodicals, etc., are allowed among the Students unless approved by the authorities.

The *Correspondence* is subject to the inspection of the President or one appointed by him.

On recreation days the Boarders have regular walks, or resort to the College villa on the outskirts of the city.

Those who have parents or guardians residing in the city, are allowed to visit them *once a month.* This privilege, however, is withheld from any Student whose conduct or application has not been satisfactory.

No Boarder is permitted to visit the city, unless for urgent reasons, at the special request of parents or guardians, and accompanied by them or by one of the Faculty. It is very desirable that such requests should be made as rarely as possible, frequent visits to the city being hurtful to the Students and very annoying to the College.

At Christmas leave of absence from the College is not granted. **This rule is strictly enforced,** as its neglect generally proves detrimental to the Students themselves and their studies.

Eatables may be sent to the Boarders for Christmas, but at *no other time* of the year.

Visitors may see the Students during the hours of recreation, but not during class or study time.

No Boarders are kept at the College during the Summer vacation.

III. For Day-scholars in particular : Day-scholars are required to be regular and punctual in their attendance. They must be at the College at 8 A. M. and 1:45 P. M.

Parents are requested to insist on their sons devoting at least two hours every evening to private study, and in case of absence from College, to give prompt notice of the cause to the Perfect of the Day-scholars.

Day-scholars may study for two hours at the College under the direction of one of the Fathers.

They are forbidden to bring anything to or from Boarders, or to do any errand for them, or to associate with them more than is necessary in Class and Academic Exercises.

Weekly reports are given respecting their conduct, application, attention, and deportment; parents are requested to sign these reports and to see that they are promptly returned to the College.

PROSPECTUS.

CANISIUS COLLEGE, conducted by the Fathers of the Society of Jesus, was opened in September, 1870, and incorporated in January, 1883, by the Regents of the University of the State of New York, with power to confer Degrees and Academical Honors.

Its object is to afford Catholic youth the facilities for securing a classical education based on the principles of religion and calculated to fit them for a successful career in life.

Students who wish to enter the College will find every desirable accommodation.

Special libraries for the promotion of good reading, a very handsome and complete set of Physical Instruments, a well equipped Chemical Laboratory, a collection of objects of Natural Science have been procured and are being yearly increased by the pecuniary sacrifices of the Institution and the generosity of friends.

Studies.

THE COURSE OF INSTRUCTION contains an Academic and a Collegiate Department. It embraces as obligatory branches Christian Doctrine; the English, Latin

and Greek Languages; English Literature, Rhetoric and Poetry; Elocution; Penmanship; History and Geography; Mathematics; Book-keeping; Physics, Chemistry, Geology and Astronomy; Logic, Metaphysics, and Ethics.

The German Language, on account of its great importance, is likewise obligatory, and is taught in a well-graded and complete course, including the reading of classics and the history of German Literature.

Besides the obligatory branches, instruction is given to those who desire it, in the French Language, in Drawing, Short-hand, Type-writing, and Instrumental Music. From these optional branches, however, pupils are excluded who do not give satisfaction in their obligatory studies.

A Preparatory Class is open for those pupils who are not sufficiently advanced to enter the Academic Department.

For the benefit of the graduates who remain in the City, as well as of professional gentlemen who wish to obtain a more accurate and thorough understanding of the most important questions of Philosophy, a Post-Graduate Class has been arranged, in which regular lectures are given, at least twice a week, beginning in October and ending in May, with a recess at Christmas and Easter. This class has proved most timely and useful. A list of the subjects which have been treated during the past year will be found in the Plan of Studies.

The Scholastic Year.

The Scholastic Year consists of one session, which begins on the first Wednesday of September and closes towards the end of June, when the Annual Commencement and the Distribution of Prizes take place.

It is highly important that all the Students be present on the day of re-opening, as the regular class-work begins at once. Not only the Students themselves suffer greatly by missing the introductory lessons of their respective classes, but in consequence thereof, great annoyance is caused to the Teachers by late comers. It is, therefore, expected that all, Boarders as well as Day-scholars, present themselves on the day of re-opening. Those who live outside the City must arrive either on Tuesday or on Wednesday before 9 A. M.

Admission.

The College admits both Boarding Scholars and Day Scholars, the instruction being the same for all Students.

Candidates for admission who are not personally acquainted with some member of the Faculty, must present testimonials of a good moral character. If they come from another Institution, they must bring a satisfactory certificate of their good standing in the Institution from which they come.

In order to enter the Academic Department, candidates must, by a satisfactory examination, prove their proficiency in the preliminary studies, viz., in reading, writing, spelling, elementary English, arithmetic, including common and decimal fractions, and physical geography. If they are not sufficiently advanced, they may enter the Preparatory Class.

Students who wish to enter an Advanced Class must pass an examination in the branches previously studied by that class.

No one is admitted unless he is willing and fit to study all the obligatory branches of his class.

Degrees.

The Degree of Bachelor of Arts is conferred on those who successfully complete the Collegiate Course, passing satisfactory examinations in all the obligatory studies.

Subsequently, the Degree of Master of Arts may be obtained by attending the Post-Graduate Class, provided satisfactory examinations are made on the subject-matter of the lectures.

Graduates of the College who do not attend the Post-Graduate Class, but successfully pursue some learned profession, may obtain the Degree of Master of Arts two years after their graduation.

Moreover, every candidate for the Degree of B. A. or M. A. is required to compose an essay on some

literary, scientific, or moral subject proposed by the Faculty; a copy of the essay, if accepted, is to be left in the Archives of the College.

Examinations, Reports and Prizes.

The Scholarship of each Student is determined by the daily class-work, by written reviews and oral examinations. There are two oral examinations in all classes, one for the first term at the end of January, another for the second term towards the end of June.

At the end of the first, second and third quarter the class-standing of all the Students is read out publicly, and quarterly reports, as well as an annual report at the end of the Scholastic Year, are sent to parents or guardians.

The principal prize at the end of the year is a gold medal, which is awarded to the Student who has the highest class-standing for the whole year; besides, a premium is awarded to the most proficient Student in each branch.

Discipline.

I. GENERAL REGULATIONS.

The Regulations of the College are calculated to secure the order necessary for the effectual pursuits of studies, to develop and strengthen character, and to promote gentlemanly deportment and good manners.

They are enforced with paternal gentleness, combined with energy and firmness. It is only when motives of honor, self-respect, conscience, and religion fail, that punishment is resorted to.

Bad conduct in or outside the College, insubordination, continued inapplication to studies, or irregularity in attendance are causes of dismissal.

The use of intoxicating liquor, or its introduction into the Institution, is prohibited under pain of expulsion. The use of tobacco is forbidden.

The Moral and Religious Training of the scholars being the most important part of education, the pupils are required to be present at Mass every day, to make the Annual Retreat, and to present themselves to their confessor at least once a month.

II. REGULATIONS FOR BOARDING SCHOLARS.

In order to prevent dangerous reading and useless expenses, no books, papers, periodicals, etc., are allowed among the Students unless approved by the authorities.

The correspondence is subject to the inspection of the President or one appointed by him.

On recreation days the Boarders have regular walks, or resort to the College villa on the outskirts of the city.

Those who have parents or guardians residing in the city are allowed to visit them ONCE A MONTH. This privilege, however, is withheld from any Student whose conduct or application has not been satisfactory.

No Boarder is permitted to visit the city, unless for urgent reasons, at the special request of parents or guardians, and accompanied by them or by one of the Faculty. It is very desirable that such requests should be made as rarely as possible, frequent visits to the city being hurtful to the Students and very annoying to the College.

AT CHRISTMAS LEAVE OF ABSENCE FROM THE COLLEGE IS NOT GRANTED. **This rule is strictly enforced,** as its neglect generally proves detrimental to the Students themselves and their studies.

Eatables may be sent to the Boarders for Christmas, but at NO OTHER TIME of the year.

Visitors may see the Students during the hours of recreation, but not during class or study time. The most convenient time for visits is Sunday afternoon from 3 to 5 o'clock.

No Boarders are kept at the College during the summer vacation.

III. REGULATIONS FOR DAY-SCHOLARS.

Day-Scholars are requested to be regular and punctual in their attendance. They must be at the College at 8 A. M. and 1.45 P. M. Without regular attendance and serious application on the part of the Students, it is impossible to attain the purpose for which they are received into the College.

Parents and Guardians are informed that home study for the space of three hours is required every day. If a Student does not devote this amount of time to his studies, the Prefect of the Day-scholars should be informed. A notice should also be sent, whenever illness prevents a Student from attending Class.

Day-scholars may study for two hours at the College under the direction of one of the Fathers.

They are forbidden to bring anything to or from Boarders, or to do any errand for them, or to associate with them more than is necessary in Class and Academic Exercises.

Weekly reports are given respecting their conduct, application, attention, and deportment; parents are requested to sign these reports and to see that they are promptly returned to the College.

Terms.

Payments are to be made QUARTERLY and INVARIABLY IN ADVANCE. In case this rule is not complied with, the Student will not be admitted nor kept. Guardians must sign a contract that they will be held personally for their wards.

Outfit.

Each Boarder should be supplied with two suits of uniform clothing, one for every day wear, and a dress suit for Sundays and Holidays, six shirts, six collars, three night-shirts, six pair of stockings, six handkerchiefs, six towels, six napkins, two or three pair of shoes or boots, a pair of rubbers, and an overcoat. The full name, or the respective number must be marked on every article.

No advances will be made by the College for clothing, books, music lessons, or any similar purpose, unless an equivalent sum be deposited in the hands of the Treasurer.

With regard to pocket money, it is desirable that parents should allow their sons only a moderate sum, and that this be left, not with the Students, but with the Prefect of Discipline, to be given as prudence may suggest or occasion require.

PROSPECTUS.

CANISIUS COLLEGE, conducted by the Fathers of the Society of Jesus, was opened in September, 1870, and incorporated in January, 1883, by the Regents of the University of the State of New York, with power to confer Degrees and Academical Honors.

The object of this institution is to afford Catholic youth the facilities for securing a classical education based on the principles of religion and calculated to fit them for a successful career in life.

Students who wish to enter the College will find every desirable accommodation.

Special libraries for the promotion of good reading, a very handsome and complete set of Physical Instruments, a well equipped Chemical Laboratory, a collection of objects of Natural Science have been procured and are being yearly increased by the pecuniary sacrifices of the Institution and the generosity of friends.

Studies.

The Course of Instruction contains an Academic and a Collegiate Department. It embraces as obligatory branches: Christian Doctrine; the English, Latin

and Greek Languages; English Literature, Rhetoric and Poetry; Elocution; Penmanship; History and Geography; Mathematics; Book-keeping; Physics, Chemistry, Geology and Astronomy; Logic, Metaphysics, and Ethics.

The German Language, on account of its great importance, is likewise obligatory, and is taught in a well-graded and complete course, including the reading of classics and the history of German Literature.

Besides the obligatory branches, instruction is given to those who desire it, in the French Language, in Drawing, Short-hand, Type-writing, and Instrumental Music. From these optional branches, however, pupils are excluded who do not give satisfaction in their obligatory studies.

A Preparatory Class is open for those pupils who are not sufficiently advanced to enter the Academic Department.

For the benefit of the graduates who remain in the City, as well as of professional gentlemen who wish to obtain a more accurate and thorough understanding of the most important questions of Philosophy, a Post-Graduate Class has been arranged, in which regular lectures are given, at least twice a week, beginning in October and ending in May, with a recess at Christmas and Easter. This class has proved most timely and useful. A list of the subjects which have been treated during the past year will be found in the Plan of Studies.

The Scholastic Year.

The Scholastic Year consists of one session, which begins on the first Wednesday of September and closes towards the end of June, when the Annual Commencement and the Distribution of Prizes take place.

It is highly important that all the Students be present on the day of re-opening, as the regular class-work begins at once. Not only the Students themselves suffer greatly by missing the introductory lessons of their respective classes, but in consequence thereof, great annoyance is caused to the Teachers by late comers. It is, therefore, expected that all, Boarders as well as Day-scholars, present themselves on the day of re-opening. Those who live outside the City must arrive either on Tuesday or on Wednesday before 9 A. M.

Admission.

The College admits both Boarding Scholars and Day Scholars, the instruction being the same for all Students.

Candidates for admission, who are not personally acquainted with some member of the Faculty, must present testimonials of a good moral character. If they come from another Institution, they must bring a satisfactory certificate of their good standing in the Institution from which they come.

In order to enter the Academic Department, candidates must, by a satisfactory examination, prove their proficiency in the preliminary studies, viz., in reading, writing, spelling, elementary English, arithmetic, and geography.

Students who wish to enter an Advanced Class must pass an examination in the branches previously studied by that class.

No one is admitted unless he is willing and fit to study all the obligatory branches of his class.

Degrees.

The Degree of Bachelor of Arts is conferred on those who successfully complete the Collegiate Course, passing satisfactory examinations in all the obligatory studies.

Subsequently, the Degree of Master of Arts may be obtained by attending the Post-Graduate Class, provided satisfactory examinations are made on the subject-matter of the lectures.

Graduates of the College who do not attend the Post-Graduate Class, but successfully pursue some learned profession, may obtain the Degree of Master of Arts two years after their graduation.

Moreover, every candidate for the Degree of B. A. or M. A. is required to compose an essay on some literary, scientific, or moral subject proposed by the Faculty; a copy of the essay, if accepted, is to be left in the Archives of the College.

Examinations, Reports and Prizes.

The Scholarship of each Student is determined by the daily class-work, by written reviews and oral examinations, which will be held on the days given in the College Calendar.

At the end of the first, second and third quarter the class-standing of all the Students is read out publicly, and quarterly reports, as well as an annual report at the end of the Scholastic Year, are sent to parents or guardians.

The principal prize at the end of the year is a gold medal, which is awarded to the Student who has the highest class-standing for the whole year; besides, a premium is awarded to the most proficient Student in each branch.

Discipline.

I. GENERAL REGULATIONS.

The Regulations of the College are calculated to secure the order necessary for the effectual pursuits of studies, to develop and strengthen character, and to promote gentlemanly deportment and good manners. They are enforced with paternal gentleness, combined with energy and firmness. It is only when motives of honor, self-respect, conscience, and religion fail, that punishment is resorted to.

Bad conduct in or outside of College, insubordination, continued inapplication to studies, or irregularity in attendance are causes of dismissal.

The use of intoxicating liquor, or its introduction into the Institution, is prohibited under pain of expulsion. The use of tobacco is forbidden.

The Moral and Religious Training of the scholars being the most important part of education, the pupils are required to be present at Mass every day, to make the Annual Retreat, and to present themselves to their Confessor at least once a month.

II. REGULATIONS FOR BOARDING SCHOLARS.

In order to prevent dangerous reading and useless expenses, no books, papers, periodicals, etc., are allowed among the Students unless approved by the authorities.

The correspondence is subject to the inspection of the President or one appointed by him.

On recreation days the Boarders have regular walks, or resort to the College villa on the outskirts of the city.

Those who have parents or guardians residing in the city are allowed to visit them ONCE A MONTH. This privilege, however, is withheld from any Student whose conduct or application has not been satisfactory.

No Boarder is permitted to visit the city, unless for urgent reasons, at the special request of parents or

guardians, and accompanied by them or by one of the Faculty. It is very desirable that such requests should be made as rarely as possible, frequent visits to the city being hurtful to the Students and very annoying to the College.

Boarders will be allowed to visit their homes during Christmas vacation at the request of their parents.

Eatables may be sent to the Boarders for Christmas, but at NO OTHER TIME of the year.

Visitors may see the Students during the hours of recreation, but not during class or study time. The most convenient time for visits is Sunday afternoon from 3 to 5 o'clock.

No Boarders are kept at the College during the summer vacation.

III. REGULATIONS FOR DAY-SCHOLARS

Day-Scholars are requested to be regular and punctual in their attendance. They must be at the College at 8 A. M. and 1.45 P. M. Without regular attendance and serious application on the part of the Students, it is impossible to attain the purpose for which they are received into the College.

Parents and Guardians are informed that home study for the space of three hours is required every day. If a Student does not devote this amount of time to his

studies, the Prefect of the Day-scholars should be informed. A notice should also be sent, whenever illness prevents a Student from attending Class.

Day-scholars may study for two hours at the College under the direction of one of the Fathers.

They are forbidden to bring anything to or from Boarders, or to do any errand for them, or to associate with them more than is necessary in Class and Academic Exercises.

Weekly reports are given respecting their conduct, application, attention, and deportment; parents are requested to sign these reports and see that they are promptly returned to the College.

Outfit.

Each Boarder should be supplied with two suits of uniform clothing, one for every day wear, and a dress suit for Sundays and Holidays, six white shirts, six collars, three night-shirts, six pair of stockings, six handkerchiefs, six towels, six napkins, two or three pair of shoes or boots, a pair of rubbers, and an overcoat. The full name, or the respective number must be marked on every article.

No advances will be made by the College for clothing, books, music lessons, or any similar purpose, unless an equivalent sum be deposited in the hands of the Treasurer.

With regard to pocket money, it is desirable that parents should allow their sons only a moderate sum, and that this be left, not with the Students, but with the Prefect of Discipline, to be given as prudence may suggest or occasion require.

All the Students must wear the College uniform, but only the Boarders must be supplied with the dress suit.
